

RG-ES207GS-AC-OD

5 GE RJ45 + 2 SFP Ports

Bring CCTV Networking Outdoors

AC-powered outdoor PoE switch for stable CCTV projects

No Waterproof Box Needed

IP65 outdoor-ready design

Cloud Management

Remote O&M

60W

PoE Budget

IP65 Protection
-30°C to 65°C

Outdoor-ready

8KV

Surge Protection

How to Win the Deal?

Start with Real Outdoor Scenarios

A

Worried About Harsh Weather?

IP65 and wide temperature design for parks, parking lots, and pole cabinets.

B

Worried About Camera Dropouts?

PoE Watchdog helps recover cameras and reduces field troubleshooting.

C

Worried About Uplink Reliability?

Dual SFP and ERPS make fiber-ready outdoor links more resilient.

Show Stability On Site. Close Projects Faster.

RG-ES207GS-PI-OD

5 GE RJ45 + 2 SFP Ports

Power Remote CCTV Sites Anywhere

Outdoor PoE switch with flexible PoE++ or 12V DC input

PoE++ or 12V DC Input
No Dedicated Power Cabling

Cloud Management
Remote O&M

60W
PoE Budget

IP65 Protection
-30°C to 65°C
Outdoor-ready

8KV
Surge Protection

PoE++ or 12V DC
Input

How to Win the Deal?

Need Higher Surge Guard?

±8kV PoE surge protection gives extra confidence in outdoor CCTV projects.

Need Fiber Uplink?

Dual SFP ports with ERPS make fiber-ready outdoor links more resilient.

Need Flexible Power?

PoE++ or 12V DC input fits solar and remote sites with flexible deployment.

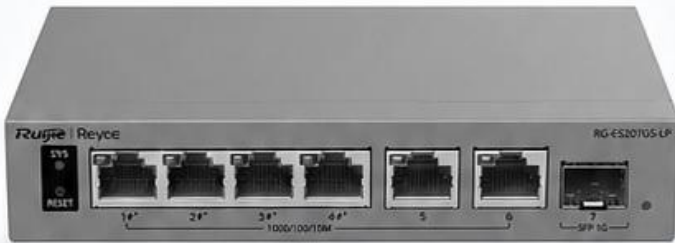

Power Remote CCTV Sites. Close Projects Faster.

ES200 LP Smart CCTV PoE Switches

Right-size PoE budget for 4-camera and 8-camera deployments

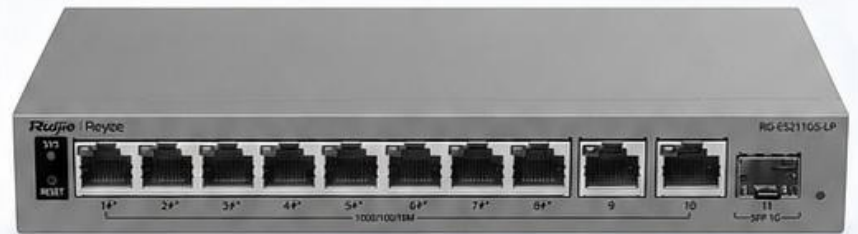

RG-ES207GS-LP

-  7-Port Gigabit
-  4 PoE+ Ports
-  40W PoE Budget
-  1GE SFP Uplink

Supports up to 4 cameras

RG-ES211GS-LP

-  11-Port Gigabit
-  8 PoE+ Ports
-  70W PoE Budget
-  1GE SFP Uplink

Supports up to 8 cameras

Choose by Camera Count. Manage in One Cloud.

Cloud Management

Perpetual PoE

PoE Watchdog

CCTV Diagnostics

3-Year Warranty

How to Win the Deal?

Fiber Uplink Advantage

1GE SFP uplink supports longer CCTV backhaul than RJ45-only uplinks.

Longer backhaul

More PoE Headroom

70W PoE budget gives 8-camera sites more power margin.

8-camera sites

Cloud + CCTV Diagnostics

Remote management, PoE Watchdog, and diagnostics help reduce repeat site visits.

Scale CCTV Faster. Keep Every Camera Online.

ES200 LP Smart CCTV PoE Switches

How to Win the Deal?

VS TP ES206GP / ES210GMP

**Fiber Uplink
Advantage**

1GE SFP uplink supports longer CCTV backhaul than RJ45-only uplinks.

Longer backhaul

**More PoE
Headroom**

70W PoE budget gives 8-camera sites more power margin.

8-camera sites

**Cloud + CCTV
Diagnostics**

Remote management, PoE Watchdog, and diagnostics help reduce repeat site visits.

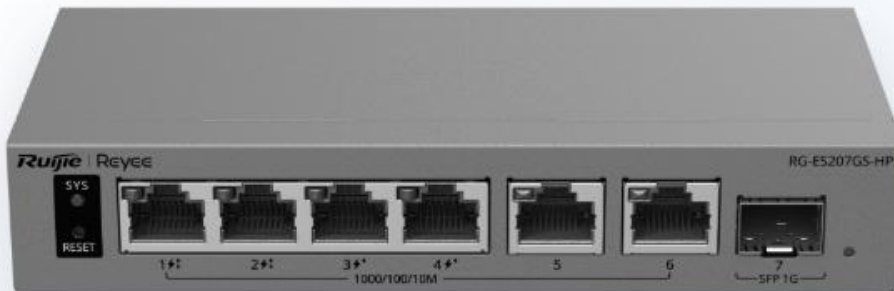

Scale CCTV Faster. Keep Every Camera Online.

RG-ES207GS-HP Smart PoE++ Switch

Gigabit PoE++ access with fiber uplink for high-power CCTV deployments

RG-ES207GS-HP

6 GE RJ45 + 1GE SFP | 4 PoE Out | 2 PoE++

120W
PoE Budget

2 PoE++ Ports for high-power cameras

All-gigabit access and uplink ports

1GE SFP uplink for fiber backhaul

Power High-demand Cameras. Extend with Fiber.

Cloud Management

120W PoE Budget

PoE++ High Power

1GE SFP Uplink

Smart Protection

How to Win the Deal?

Need True Gigabit?

Gigabit PoE access helps avoid camera traffic bottlenecks on demanding sites.

GE to every port

Need Fiber Backhaul?

1GE SFP uplink supports longer CCTV backhaul than RJ45-only uplinks.

Fiber uplink ready

Need More PoE Headroom?

120W budget and PoE++ ports support PTZ and high-power cameras with more margin.

Power bigger loads

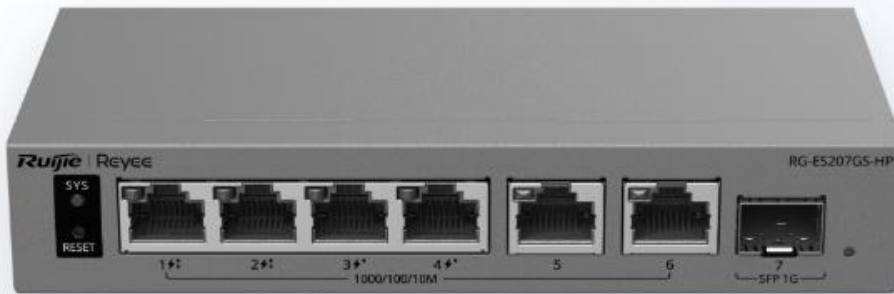

Upgrade CCTV Access. Power More Demanding Cameras.

RG-ES207GS-HP Smart PoE++ Switch

Gigabit PoE++ access with fiber uplink for high-power CCTV deployments

RG-ES207GS-HP

6 GE RJ45 + 1GE SFP | 4 PoE Out | 2 PoE++

120W
PoE Budget

2 PoE++ Ports for high-power cameras

All-gigabit access and uplink ports

1GE SFP uplink for fiber backhaul

Power High-demand Cameras. Extend with Fiber.

Cloud Management

120W PoE Budget

PoE++ High Power

1GE SFP Uplink

Smart Protection

How to Win the Deal?

VS HIK DS-3E1310HP-EI (B)

Need True Gigabit?

Gigabit PoE access helps avoid camera traffic bottlenecks on demanding sites.

GE to every port

Need Fiber Backhaul?

1GE SFP uplink supports longer CCTV backhaul than RJ45-only uplinks.

Fiber uplink ready

Need More PoE Headroom?

120W budget and PoE++ ports support PTZ and high-power cameras with more margin.

Power bigger loads

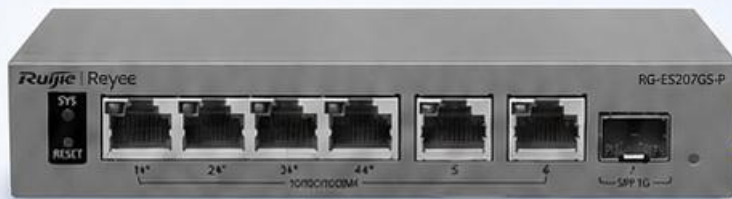

Upgrade CCTV Access. Power More Demanding Cameras.

RG-ES103F-P

1 FE PoE Input + 2 FE PoE+ Output Ports

Power Two Cameras from One PoE Line

Compact PoE-In switch for simple CCTV expansion

PoE Input
from NVR / Switch

PoE+ Output
to Camera

One uplink powers two camera points.

30W
PoE Budget

350m
Max CCTV Reach

4KV
Surge Protection

Plug & Play
No Config Needed

How to Win the Deal?

Need More Camera Points?

Add two PoE+ camera outputs near the site with one upstream PoE line.

Need Longer CCTV Runs?

Up to 350m coverage helps reach gates, corridors, and remote corners.

Need Easy Retrofit?

No local AC outlet, no power adapter, no controller setup.

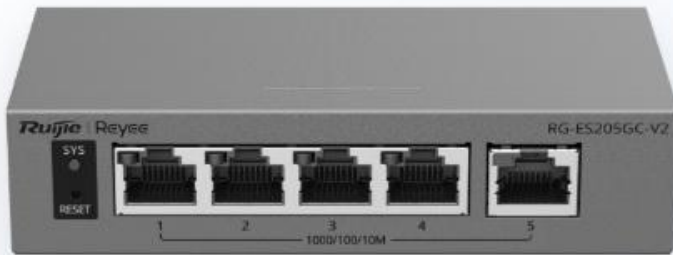

Expand CCTV Coverage. Close Small Sites Faster.

ES200 Series Smart Switches

Cloud-managed Gigabit access for small business networks

• RG-ES205GC-V2 •

-  5 GE RJ45 Ports
-  10Gbps Switching Capacity
-  7.44Mpps Forwarding Rate

For compact access sites

• RG-ES208GC-V2 •

-  8 GE RJ45 Ports
-  16Gbps Switching Capacity
-  11.9Mpps Forwarding Rate

For more access endpoints

Cloud Management. Build Smarter Access Networks.

Cloud Management

SON

Smart Protection

3-Year Warranty

How to Win the Deal?

Cloud-first Access

Remote visibility and unified management make multi-site access easier to maintain.

Manage every site

Faster Network Setup

SON helps switches discover each other and simplify initial deployment.

Less setup work

Safer Everyday Access

Smart Protection helps reduce loops, storms, and common access-layer issues.

More stable access

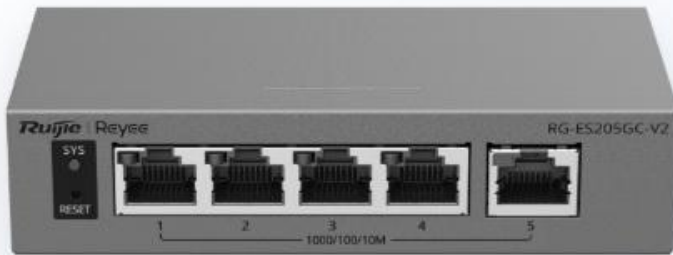

Deploy Access Faster. Manage Every Site in One Cloud.

ES200 Smart CCTV PoE Switches

Dedicated SFP uplink for 4-camera and 8-camera CCTV deployments

RG-ES207GS-P

- 7-Port Gigabit
- 4 PoE+ Ports
- 54W PoE Budget
- Dedicated 1GE SFP Uplink

Supports up to 4 cameras

RG-ES211GS-P

- 11-Port Gigabit
- 8 PoE+ Ports
- 120W PoE Budget
- Dedicated 1GE SFP Uplink

Supports up to 8 cameras

Keep Fiber Uplink. Keep Every RJ45 Port.

Cloud Management

Dedicated SFP

Perpetual PoE

PoE Watchdog

Smart Protection

3-Year Warranty

How to Win the Deal?

Need Fiber Uplink?

Dedicated SFP uplink enables longer-distance CCTV backhaul without using an RJ45 port.

SFP without compromise

Need More Usable Ports?

7-port and 11-port designs keep RJ45 access available while adding fiber uplink.

More usable connectivity

Need Easier O&M?

Cloud management, PoE Watchdog, and Smart Protection help reduce repeat site visits.

Remote troubleshooting

Build CCTV Access Faster. Keep Uplinks Flexible.
